Welcome to the Music Super Curriculum. Below you will find a whole host of exciting things to do to develop your understanding and boost your knowledge of Music.

In the Music Super Curriculum, we will look at generic music as well as focusing on one specific genre. This term, the focus genre is: K-pop. K-pop, which stands for Korean popular music, comes from South Korea and is a big part of its culture. K-pop mixes many different styles of music from all over the world, like pop, hip hop, rock, jazz, and even classical music, along with traditional Korean sounds. The name "K-pop" became well-known around the world in the 2000s. K-pop artists include: BTS, Jimin, Seventy and JungKook.
