

CURRICULUM OVERVIEW

Other subjects taught discretely:
RWI Phonics/Text that Teach/
See & Learn
*Maths *R.E
*Music *PE/ Swimming
*Science dazzle days

AUTUMN

What makes me special? Who am I?

We will start the year by looking at what makes us special. We will explore our emotions and use the film 'Inside Out' to identify emotions and how they are expressed. In addition, to this we will be working on modelling 'good' play to include turn taking, sharing and how to communicate with peers in the right way. This term will help the children establish good play habits which will form the basis for many of our learning activities in 4N and 5P.

4N & 5P

SPRING

How is where Katie Morag lives different to us?

We will start by studying the local area around our school and then our own locality of Torbay. The children will study aerial photographs and complete geographical surveys to help compare with the contrasting coastal location in the book Katie Morag.

SUMMER

What lies under the sea?

In the summer term, the children will be looking at the local coastline. We will be taking trips the seaside to look at rock pools and the animals that live in them. We will be delving deeper and finding out more about where animals live within the layer of the sea. In addition, we will be focusing on some beach safety ready for the summer holidays. We will be using the Rainbow Fish as our focused text.
