Dear Parents and Families,

Re: Roblox

You may have heard of the Online game Roblox, and your child may be one of the millions of children across the world who enjoys using this fun game to interact with other like-minded children.

As with anything online, there are dangers that you should be aware of and measures that can be taken to keep your child safe.

We would like to make you aware that there have been some recent local incidents in which Roblox has been used inappropriately by adults as a platform to exploit and coerce children.

These incidents are quite rare and we do not want to scare anybody, however, we think it is important to make you aware of the dangers and how you can safeguard your child against these as it's easy to think your child is happily playing the game when there could be things going on you are unaware of.

These are some of the Risks:

- Inappropriate content
- Grooming
- Exploitation
- Sharing information
- In-game purchases

The following link takes you to a Roblox guide for parents and carers. Please take time to read this information and talk to your child about Roblox, making sure you use the correct age-appropriate settings before your child plays it:

<https://ineqe.com/2025/09/17/roblox-what-you-need-to-know/>

This will help to ensure that your child can play the game safely and enjoy the many benefits that the game offers.

If you want any further support with this or have experienced any concerns around Roblox, please contact me at school.

Yours sincerely

Mr M Davey

Mr Matt Davey
